Trusted above all.™

Viking's Premium Dry Sprinkler Collection

Representing the pinnacle of dependability and durability

Protect Areas Subject to Freezing With Our Dry Sprinkler Solutions

The versatility of our dry sprinklers makes them suitable for a wide range of applications, from commercial and residential spaces to storage and warehouse facilities, expect fire suppression technology you can trust throughout the line. Protecting even the most challenging applications, dry sprinklers deliver a quick response in a variety of coverage options to minimize damages while defending what matters most.

Features and advantages of our dry sprinkler line:

- Options available in upright, pendent and sidewall with various coverage options
- Designed for dry and preaction systems, but can be supplied from a wet system in an adjacent heated area
- Thermosensitive spray sprinkler suitable for use in areas subject to freezing
- Prevents water or condensation from entering the drop nipple before sprinkler operation
- Storage and ESFR dry sprinklers can eliminate in-rack sprinklers
